I found home, finally home,
authentic me at home

As trees need to spread their roots in order to grow, the YOU concept, by Fabric Copenhagen, allows you to expand yourself and your business.

We all know how fundamental it is to feel at ease at home. A special space, warm and cosy, which essence is the extension of your authentic self.

We provide the pleasure to feel comfortable in your dwelling place, even if it is just for a short period of time!

As for business, our aim is to optimise your boutique, ease the purchase and enhance the presentation of your products.

YOU offers more than interior design counseling.

Here, it is all about you. We create an atmosphere and space for your home, hotel and boutique, adapted to you and your expectations.

We care about your well-being and give you the support to bring harmonious life to the space you desire.

After encountering a great success in the textile world, danish designer Annette Eghlom (Fabric Copenhagen) expands her knowledge into interior design, considering every request as unique. She imagines practical solutions through an innovative look, high quality products and exceptional finesse.

**Today, Fabric Copenhagen
products and designs are all around the world.**
